Minecraft castle siege server 2019

GoDoYourHomework I remember, in 2014. I only played the Castle Siege game (at Mineplex), and that would be what I spent most of my time on. I came 4 years later and came to find him now dead. It was a really fun game (for me at least), and it would be great if it was added as a game at Hypixel. It would be awesome to try a huge battle of 50 v 50 again! joshua123_4 All large-scale team battle modes are dead or dying. They have a bedwars dream castle mode (40v40), but because of the rotation it's not up to the ATM. I only played the Castle Siege game (at Mineplex), and that would be what I spent most of my time on. I came 4 years later and came to find him now dead. It was a really fun game (for me at least), and it would be great if it was added as a game at Hypixel. It would be awesome to try a huge battle of 50 v 50 again! Ew no Trashplex You must log in or register to respond here. I'm looking for a server that has a castle siege like minigame, where you're playing in the massive team vs. team fights, where one team has to defend something while the other team attacks. Preferably one where you have at least 20 or more people on each team, so it actually feels a bit like a war. Mineplex I really liked, but it seems that nobody ever plays it again. Any suggestions? Bowhoop December 20, 2020 at 3:16 am I need a real response to when the server 9 will be fixed. Im so tired of not being able to connect to survival because im softlocked in the main center. All I have and is on server 9 and of course that's the server that's acting up. I need help... Sven in Server Discussion Sven Dec 20, 2020 at 2:41 AM It is also curious how some staff members will refuse to punish their friends who are closing and/or being toxic. Again I also had a ghost outfit mod... 510bike December 20, 2020 at 1:47 I would love to see an event server. I think at the moment big parties and creative housing act as fantastic alternatives, but there are also limits to these two things. I think an event server would allow much more freedom in events. It would also make things much more organized. Hoping to see more official Bedrock events in the future, and an event server for them would be... 8350 December 20, 2020 at 1:29 AM IGN: (Will say in DM if you win) Favorite part of the holiday is relaxing BobTheSnowman in New Game Discussion BobTheSnowman December 20, 2020 at 1:27 am Hello, it looks like you've created this thread twice, once in the 'New Discussion of the Game' and once in 'Bedrock Ideas'. In the future, I recommend against creating multiple threads on the same topic that a single thread is more likely to create an active discussion, because all different opinions are in one place. Anyway, you can see the you gave over your other thread:... BobTheSnowman on survival BobTheSnowman December 20, 2020 at 1:18 am Don't Worry, I've had the same problem for a long time, made a post about it and they them how to hear the truth so you closed the thread to ensure you don't... ThankfulDamien on Skywars ThankfulDamien December 20, 2020 at 12:56 am Heya! Skywars is a touchy topic as both versions have their drawbacks. I'll start with the original version of skywars with chosen kits. The biggest disadvantage of this, was 2 of the kits were heavily outplayed by the other 2, forcing players to choose between one or the other, even if they didn't like it. This is unfortunate because this version of skywars was fun, but if you... Marzie December 20, 2020 at 12:33 AM So what you're saying is complete as many lines as possible, then send them all in a link? CookieBilly in Server Discussion CookieBilly Dec 19, 2020 at 11:53 PM Ideas noticed and shared with the rest of the event team and event attendance team, I'm not a big fan of skin competitions myself, but if the community would enjoy this, I don't see the harm in doing them. Thanks for your ideas, we will see what happens :eyes:... xPossum on YouTube Video Showcase xPossum Dec 19, 2020 at 23:45 After the server fights, I managed to get rid of enough snippets to open some chests. xstr4flingx at Bedrock Ideas xstr4flingx
